Subject: English	Objectives:
Class: 6th	- Learn new vocabulary related to gadgets
Time:45	- Use English in simple spoken and written sentences
Theme: Learning English with AI: Gadgets as Smart Helpers.	- Understand AI as a smart learning helper
Type of lesson: Innovative / Interactive	- Develop cooperation skills through group work
Teaching methods: AI-assisted learning, group work, communicative approach	Outcomes
Materials: Pictures, flashcards, board, students' notebooks	By the end of the lesson, students will be able to:
	-name and recognize common gadgets in English;
	- explain in simple words how AI helps them learn English;
	-work confidently in groups and share ideas;
	-show positive attitude towards learning English.
Stage and aims	Procedures
Warm up or review	I.Organizational Moment (3 minutes) Good morning students. I'm glad to see you. How are you? Welcome to our English lesson. Today we have a very special lesson II. Warm-up (5 minutes)
Introduction	<p>The Digital Human Battery</p> <p>Goal: To energize students and introduce the concept of "battery life" and "energy" in gadgets and humans.</p> <p>Teacher's Instructions (Instructions for the class):</p> <p>Teacher: "Class, please stand up! Today, you are not just students. Each of you is a Smartphone. Like every smartphone, you have a battery."</p> <p>Teacher: "I will call out the battery percentage, and you must show me your energy level!"</p> <p>"100% Battery!" – (Students jump, clap their hands, and act very energetic).</p> <p>"50% Battery!" – (Students slow down, walk in place slowly, or sit halfway).</p> <p>"1% Battery..." – (Students sit on the floor, close their eyes, and act very tired/weak).</p> <p>"Charging Mode!" – (Students pretend to plug themselves in and slowly start rising up).</p> <p>The AI Twist (The Innovation): Teacher: "Now, let's use the AI-Super-Charger! Imagine that Artificial Intelligence is giving you a 'Smart Charge' by sharing new knowledge. BOOM! 100% Energy!" (Students jump up instantly and shout: "We are ready!")</p> <p>I hope that you are good today.</p> <p>T: So, did you guess? What are we going to talk about?</p> <p>P: We are going to talk about a computer, mobile, a phone, a camera, a laptop</p> <p>T: Yes, you are right, Today we'll speak about gadgets.</p> <p>Which of these gadgets do you use and for what?</p> <p>P:</p> <p>What is AI?</p> <p>P:</p> <p>(Simple explanation) AI (Artificial Intelligence) is smart technology.</p> <p>It can think, learn, and help people .</p> <p>"AI is a smart helper. It helps us learn and correct mistakes."</p>

<p>Presentation</p>	<p>I. Presentation of New Vocabulary (8 minutes)                  New words are presented with pictures:                  Gadget                  Phone                  Computer                  Tablet                  AI                  Webcam                  Laptop                  Smartwatch.                  Headphones                  Memory card                  Students repeat chorally and individually                  The teacher explains. Why do we need these gadgets?                  This is a phone.                  I use a phone to call my friends. (...etc)</p>	
<p>Practice, games and activities</p>	<p>IV. Notebook Work (10 minutes)                  Exercise 1: Write and match the words with pictures.  <a href="https://wordwall.net/resource/106295811/untitled2">https://wordwall.net/resource/106295811/untitled2</a>                  1. _____ 3 _____ 5 _____ 7. _____ 9. _____                  2. _____ 4 _____ 6. _____ 8. _____ 10 _____                  (phone, computer, tablet, memory card, headphones, smartwatch, laptop, webcam, AI, gadgets)                  V. Group Work: Smart Teams (10 minutes)                  Students are divided into 3 groups:                  Group 1 – Gadget Team: write sentences about gadgets.                  Group 2 – AI Team: write sentences about how AI helps learning.                  Group 3 – Smart Life Team: draw a gadget and write sentences.                  VI. Production (5 minutes)                  Students present simple sentences orally:                  "I use a phone to learn English." "AI helps me learn."</p>	
<p>Homework/ Notes for NC</p>	<p>VII. Homework (2 minutes)                  Draw your favorite gadget or AI helper.                  Write 4 sentences about how it helps you learn English.</p>	
<p>Assessment</p>	<p>VIII. Teacher gives positive feedback: (2minutes) Great try! Nice sentence! You are learning fast!</p>	

Conclusion

Modern students grow up surrounded by technology. Using artificial intelligence (AI) in English lessons increases motivation, confidence and interest. This lesson combines gadgets, group work and simple AI ideas to help students learn English naturally.

This lesson proves that AI is not a replacement for the teacher but a powerful assistant. Using technology, group work and creativity makes English learning effective and enjoyable.

## Innovative LESSON

### Learning English with AI: Gadgets as Smart Helpers

Today, 5th grade students explore English with the help of artificial intelligence!

**AI is a smart helper.**  
It helps us learn and correct mistakes.

**Lesson Objectives:**

- ✓ Learn new vocabulary
- ✓ Write simple sentences
- ✓ Work in groups with AI's help

**Expected Learning Outcomes:**

By the end of the lesson, students will:

- ✓ Name and recognize gadgets
- ✓ Write 3-4 sentences in English
